Storm Ends Here As Precipitation Goes To 40 Inches

Road Crews Do Fine Work As Spring Storm Here Creates Havoc

With spring apparently here at last, the entire area was digging out, surveying damages and offering hopes that the persistent series of storms have finally ended.

Seventy-seven inches of new snow fell in Truckee between April 1 and 7, according to Henry Toccalini of the U. S. Forest Service.

Precipitation for the first seven days of the month was 6.45 inches compared to a normal of 1.86. The total precipitation for the season up to yesterday was 40.39 inches while the normal to September is only 27 38. This gives the area 13.01 inches over normal for the entire year.

Sixty inches of snow remained on the ground Wednesday with the temperature rising. The low for the past week was 16 and the high 45 degrees.

After being closed five days. Highway 40 over Donner was reopened Sunday and Tuesday U. S. 50 was also reopened. Both had been closed by slides. The highway at Baxter was still closed by an earth slide but the detour via the Alta store was keeping traffic on the move.

By working around the clock, state and county road crews kept streets and highways open in this area all during the storm with the exception of brief periods when slides forced closures in some areas. As soon as the storm stopped, the crews started the job of cleaning up and equipment was kept busy night and day this week. Thanks of the communities was extended the local crews for a big job well done.

President Signs Games Fund Bill

President Dwight D. Eisenhower has signed a bill authorizing $4 million in federal funds for the 1960 Winter Olympic Games in Squaw Valley.

The money still must be provided in separate legislation.

The bill authorizes $3,500,000 for construction of an ice arena at Squaw Valley and $500,000 for expenses of military units authorized to provide avalanche control, communications and other services during the games.

Congressman George P. Miller of California told the house last week that California has appropriated $8,000,000 for facilities needed for the games and would repay the federal investment by leasing the national forest area after the games for use as a state park.

GATES AT LAKE ARE OPENED THIS WEEK

TAHOE CITY—With the lake level Monday at 6228.41 feet, the gates were opened and 1660 csf of water were being discharged, Art Frodenberg, cooperative observer reported.

There were 91 inches of snow on the ground at Tahoe City on Monday as a result of the heavy snows during the week.

Forty-two inches of snow fell on Thursday, nine more on Friday and three inches since that time, all with moderate precipitation that totaled approximately five inches.

The temperature has varied from a low of 16 to a high of 37.

MT. DISNEY LIFT IS AGAIN OPERATING

Walter Haug, manager of Sugar Bowl on Donner Summit, announced this week that the Mt. Disney lift, which had been stopped during last week's storm, is again in operation for the convenience of skiing enthusiasts.

Other facilities in the summit area are also reported again running after being buried by the heavy snow of last week.

BROTHER OF LOCAL MAN DIES IN MISHAP

Mr. and Mrs. James (Hap) Warnke attended rites Tuesday at Sacramento for his brother, 22-year-old Lt. Don Miller, who died April 3 following an automobile accident at Santa Ana a month ago. Interment followed in the I.O.O.F cemetery in the capital city.

The deceased was in the U. S Marine Corps and had friends in this community where he often had visited.

The young man is survived by his wife, Patricia; his mother, Mrs. Herma Warnke of Sacramento, brothers, Clarence Miller of Perkins, Orman Warnke of Sacramento, James Warnke of Donner Lake, and sisters, Miss Joyce Warnke of Honolulu and Beverly Taylor of San Jose.

Lt. Miller continued in a coma for several weeks after the car in which he was riding hit a tree, but his death was unexpected.

Sympathy of the community has been given his family.

Snow Parking Still Being Considered Despite Conditions

In spite of the fact that during the middle of February Squaw Valley was inundated by rain which turned the meadow into a lake, and the blizzard which buried the region under 10 to 15 feet of snow during March and early this months, planners for the 1960 winter Olympics are still hopeful that the snow compacted area for 12,000 cars will provide a parking solution.

A prepared statement sent out from the headquarters of the organizing committee in San Francisco this week said:

A snow compaction experiment which may save the State of California more than $700,000 has met with marked success at the Squaw Valley site of the 1960 Olympic Winter Games.

Since Feb. 10, the United States Navy has been utilizing the knowledge and techniques gained in arctic explorations to ascertain the feasibility of parking buses, automobiles and other vehicles on large areas of packed snow.

And it's been working.

For the past three weekends the experimental area, known affectionately to the Navy as "the pad," has been made available for public parking and has borne successfully an estimated 200 vehicular tons at one time.

If the experiment proves workable, the organizing committee of the Olympic Winter Games hopes to make available a snow-compacted surface to park 12,000 automobiles for the 11-day period of the games in February, 1960. An alternate parking system would also be planned for emergencies.

ALTERNATE AREAS

Should the snow compaction procedure prove unworkable, the organizing committee will be forced to install large paved areas at either Tahoe City or Truckee, 6

FASHION SHOW BY STUDENTS PLANNED

The homemaking students of the Tahoe Truckee High School will present their fourth annual fashion show—"Modes du jour"—in the gymnasium April 24 at 8:15 p. m.

Shelia Fanger has been selected as the general chairman. Working with her are:

Programs: Nona Rae Coffey.

Invitations: Penny Hulbert.

Decorations: Sondra Tremayne, Joan Brown, Donna Barnes.

Refreshments: Pat Gunkel.

Stage manager: Dorothy Mercer.

The public is cordially invited.

DR. DeMERS TO TALK AT P. T. A. MEETING

Dr. Albert DeMers will speak on the care of the eyes at the April 10 meeting of the Tahoe Truckee High School P. T. A. at the school.

Elmer Brown, president, will open the business session which will be preceded by the 7:30 meeting of the nominating committee.

Walter Jellin, publicity chairman, extended an invitation for all parents and others interested to attend.

LOST WALLET FOUND, RETURNED TO VISITOR

Mrs. Karl Kielhofer played the role of good Samaritan to a Berkeley visitor here last Friday when she found a woman's wallet, containing identification and currency in the middle of the highway, in spite of heavy snow and traffic.

After notifying the Sierra Sun office of the find from her home, Mrs. Kielhofer made a second trip downtown and met Miss Linda Wolford of Berkeley, guest of Miss Jean Kessey, searching along the road. After verifying the name, the wallet exchanged hands, both women happy with the result.

WARRANT ISSUED FOR JAIL BREAKER

Deputy Sheriff Roy Waters said a felony warrant has been issued for William Chester Lewis, 34, of Mountain View, who was recently sentenced to serve a year in jail on a drunk driving charge.

Lewis apparently walked away from the jail here Monday after being employed as a trusty.

Waters said that Deputy Roger Johns answered a police call and his temporary absence gave the prisoner an opportunity and he made his escape.

Home Destroyed By Fire At Lake; Firemen In Test

Donner Department Given First Workout As Fire Razes Home

Fire which apparently started from an explosion of gas under the Dr. Charles Weideman home at the west end of Donner Lake Saturday completely destroyed the large dwelling at a loss estimated at $15,000.

Previous to the fire, the walls of the structure had partially collapsed and the family of eight children moved into a nearby motel. The pilot light of the furnace may have been left on and the shifting building probably pulled a gas connection loose, resulting in the explosion, observers believe.

The newly formed Donner Lake Volunteer Fire Department gave certain proof of their ability to respond in force. Twenty-two men were at the scene with all equipment and managed to prevent the surrounding homes from being damaged. The president of the Ladies Auxiliary gave the alarm and alerted all members of the department by telepohne.

One piece of equipment from the Truckee Volunteer Department responded to the call and gave valulable assistance.

The fire was discovered by Dr. Robert Affeldt, who immediately went to the Donner Trading Post where the alarm center in located and all members of the department were notified.

Thanks for Aid

The Ladies Auxiliary of the Donner Department expressed appreciation for the support given by Truckee and Donner Lake during their recent food sale and reminded members and prospective members of the next meeting to be held April 17 at 7 p. m. at Donner Lake Lodge.

Superintendent Of District Employed

Chester M. Doerr has accepted the position of superintendent of the Truckee Public Utility District as of April 1.

C. Edmunds, manager of the district, in announcing the appointment of Doerr to this position, stated that he came highly recommended from a similar position he held in Howard, South Dakota, for the past seven years and prior to that he was employed for nine years in a like capacity by the City of Bryant in the same state.

Doerr was in charge of both the power and water systems in those two cities and has had extensive line and meter experience.

The new superintendent is accompanied by his wife and making their home temporarily at the Hotel Truckee pending the finding of a suitable permanent home in the area.

Mr. and Mrs. Doerr visited here last November and were pleased with this area and look forward to their stay in the district.

Doerr is an ardent fisherman and Mrs. Doerr is interested in social activities.

MOREY NAMED FOR SPORTS PROGRAM

Daven Morey has been named director of a proposed sports clinic program, sponsored by a major oil company in Truckee, in conjunction with the company's weekly TV program on Channel 8 at Reno.

Morey said the program, to show the fundimentals of various sports, is for children and teenagers and will include baseball, fishing, hunting, track and other sports.

To Bay—

Mr. and Mrs. Chas. Vind and children spent the Easter vacation in the bay area.

Delayed Trip—

Mr. and Mrs. Walter Loynd and Miss Linda Loynd drove to the bay district where the latter resumed her studies and her parents visited with friends and relatives. The Loynds were delayed at Sacramento for several days due to the close of Highway 40.

Go South—

Mr. and Mrs. Harold Langille left last week for Mexico where they will vacation with Mr. and Mrs. Jack Langille of Boise, Idaho.

Bids For Schools Will Be Opened Here Next Week

At the meeting of the Tahoe Truckee Unified School District governing board Monday, April 14, bids for the construction of additions to the school buildings at the high school and the Tahoe Lake elementary school and construction of the new Truckee elementary school will be opened

The board will also approve the school calendar for the 1958-59 year and review expenditures and decide disposition.

Construction work on the new buildings is expected to start in the immediate future, Superintendent John Corbin said, so that if possible use can be made of them when school starts for the new year in September.

Corbin announced that resignations have been accepted from the following faculty members: Helen Camp, Truckee elementary; Ruth Croxen, Kings Beach elementary; Orlon Siewert, teaching-principal, Donner Trail School.

Edward L. Morris has been employed for the arts and crafts department of the high school.

CHARLES WHITES TO FETE ANNIVERSARY IN QUIET OF HOME

Mr. and Mrs. C. B. White are receiving felicitations of their many friends today, their 57th wedding anniversary. The observance is a quiet one as Mrs. White is confined to their home with an ankle injury.

The couple were married at Sacramento and have lived in Truckee for more than half a century.

Each has been prominent in lodge, civic and church circles during their residence.

A son, Charles White, his wife and daughter, Marilee, reside at Sacramento.

FILMS WILL FEATURE SPORTSMEN'S MEET

Two of the Remington Arms Company's most popular films. Exhibition Shooting" and "Gunning the Flyways," both outstanding sporting pictures, will be shown at the meeting of the Truckee Outdoor Sportsmen tomorrow evening at Capitol Hall.

Members and guests are invited to attend the meeting and Vice President Charles V. Osburn, who arranged to have the films sent here for the meeting, said a large audience is anticipated.

Other matters of importance to the sportsmen of the area will be discussed and Frank Fox, the club president, will be in charge of the business meeting.

PAT HUGHES TAKES SUPERINTENDENT JOB

Pat Hughes recently passed an examination third high in the state for the position of superintendent of the California Division of Highways and will assume a new position April 28 at Yreka.

Hughes has for the past three years been senior highway foreman for this area under Superintendent Frank Fox.

Mr. and Mrs. Hughes who have lived at Donner Lake have bought a house at their new location and have been receiving the congratulations of friends upon learning of the promotion. He is delaying his departure until the present road condition has been cleared.

The name of the new foreman was not immediately learned.

Away Two Weeks

Mr. and Mrs. Darol McGihon and family returned Monday from a two weeks vacation in San Diego, Long Beach and other places in the south. They reported lots of rain in that area.

Mr. and Mrs. R. W. Pankratz and daughters, Hazan, Barbara and Edith of Richmond have been enjoying the deep snow during the week at their Donner Lake home.

Via Air—

Miss Judith Loynd flew from San Francisco to Reno last week where her parents, Mr. and Mrs. E. L. Loynd met her, returning during the storm Upon arrival they found difficulty in getting into their house because of the heavy snowfall during their brief absence.

Stopped at Sacramento—

Mr. and Mrs. Reg Smart and children who had been Oakland visitors stayed at Sacramento waiting the opening of Highway 40 last week.

Move To Bridge Emerald Bay Is Killed At Capitol

Parks Head, Sierra Cluber Opposes Legislation For Improvement

A senate resolution calling for an all-year, low-level highway along the west side of Lake Tahoe to include a bridge over Emerald Bay, died in the assembly committee Tuesday.

Senator Swift Berry of Placerville, co-author with Senator H. T. Johnson of Roseville, said the present high level highway circling the bay is closed most of the year and is a "menace to the lives of the men who work on it" because of slides

He offered a tube under the mouth of the bay as a less expensive alternative to a bridge and urged building the highway in time for the 1960 winter Olympic. He argued that the tube would not impair the area's natural beauty.

Robert Golden of Sausalito, representing the Sierra Club said "a group of local business interests" wanted what amounted to a high speed highway with no concern for the natural beauty of the area.

Newton B. Drury, chief of state beaches and parks, said a bridge would have a "mutilating effect on one of the greatest scenic beauties of the United States."

Joseph Duffee Of Tahoe Succumbs

TAHOE CITY— Another of Lake Tahoe's most prominent and widely known residents, Joseph James Duffee. 73, expired shortly after noon Tuesday following a lengthy illness. He underwent a major operation in January and never fully recovered.

The deceased was a native of Sacramento born in 1884. For the past 50 years he had lived at Tahoe City and was a successful plumbing contractor. A few years ago he and Mrs. Duffee moved to Sacramento but the call of Tahoe proved great and they returned to make their home in this area.

Private funeral services will be held at 1:30 p. m. today at the Masonic Lawn cemetery in the capital city and Bishop Noel Porter, a close friend of the family. will offiicate. The family asked that flowers be omitted but that donations in the name of the deceased would be welcomed by St. Nicholas Church at Tahoe City.

The Truckee Colonial Mortuary had charge of local arrangements.

Duffee is survived by his wife, Irene, and a daughter, Mrs. Eunice Henrikson of Tahoe City. There are two grandchildren. Mrs. Matt Green of Sacramento is a sister and Raymond Duffee, also of Sacramento is a surviving brother.

Duffee had been active in civic and lodge affairs and he will be greatly missed by a legion of friends. Symphathy of the community goes out to the family.

BROTHERS' NIGHT TO FEATURE O. E. S. MEET

Truckee Chapter No. 116, O.E.S. will hol dtheir regular stated meeting on Tuesday, April 15 at 8 p.m. Worthy Matron Lillian Miller and Worthy Patron Dan Anderson will preside.

This will be the annual Brothers' Night and Robert Siebold is named as chairman for the evening to be assisted by the rest of the brothers of the chapter. A lively time is expected and all members are urged to attend.

Drill Team Enjoys Visit To Donner Ski Haven

Mrs. Bert F. Johnson of Novato, drill master of the Novato Thunderbirds drill team, was hostess to the group at the Johnson place, Donner Ski Haven, during the recent heavy snow.

Mrs. Paul Hansen was also a chaperone. The guests expressed themselves as being thrilled by the experience and reported plenty of food although they built a 100 foot toboggan run into the house to deliver the groceries.

OUT OF HOSPITAL

Ronnie Rau, who has been in a Glenwood Springs, Colo., hospital for the past month receiving treatment for a leg broken in a skiing accident, has returned home and reports are that he is doing well.

McGlade Charter Member Of New National Academy

For the first time in the history of medical administrative practice an international professional society has been formed to fill the needs and to give appropriate reconition to those engaged in the many specialties of medical administration.

The American Academy of Medical Administrators was founded in Boston and was given a charter as a non-profit professional society under the laws of Massachusetts.

A charter member of the Academy is John J. McGlade. 40, administrator of the Tahoe Forest Hospital and a native of Philadelphia.

McGlade entered the military service in Philadelphia and served four years, including two years in the South Pacific area with a 500-bed station hospital as officer in medical administrative corps.

Following his discharge, McGlade came west and settled in Truckee in 1946. He had well rounded experience in managerial staff positions in industry, particulary production management. He worked at the California Highway Patrol office for several years as clerk, drivers' examiner and vehicle registrar and for two and a half years was business manger at the Tahoe Truckee School District office.

He served as treasurer of the hospital from 1949 until 1954 and then became administrator, a position which has earned him wide recognition.

The administrator is married and has three sons.

Some of the purposes of the academy are to encourage and foster a scientific approach to the practice of medical administration, provide a means of intercommunication, promote, conduct and foster educational courses in this specialty, provide for employment opportunity an dprofessional advancement through recruitment, referral and placement services and many other objects such as to provide for recognition by means of fellowships, scholarships and grants to those who are doing noteworthy service in this field.

GIRLS DRAMA GROUP TO PRESENT PLAY AT P. T. A. MEETING

A one-act play entitled "A Touch of Genius" will be presented by the Girls' Drama Group of Truckee at 8 p. m. Monday evening, April 14 at the Truckee Elementary School PTA meeting.

The cast of eight girls, under the direction of Mrs. Roy W. Saarni, has been rehearsing twice a week for several months for this production.

Everyone is cordially invited to attend.

The cast is as follows:

Doane Kaspian ,Mrs. Bolton, harassed mother; Kathy Curran, Karen Bolton, her 15 year old daughter; Janice Roth, Edith Bolton, her 13 year old daughter; Mary Ann Miller, Peanut Bolton, her tom-boy daughter; Betty Saarni Bobbie Martin, Peanut's friend; Shirley Patton, Frannie, Edith Jo's friend; Pat Saarni, Elvira Morningstar, opera singer; Ginger Barnes, Signor Pierre Malini, the great maestro.

Assembly Committee Approves Flood Measure

A California assembly committee has approved and sent to the floor a measure authorizing the state to participate in the Truckee River flood control project.

The project, between Lake Tahoe and Reno, will be constructed by the U. S. Corps of Engineers. It will allow lowering of the lake to prepare for heavy snowmelt, thus preventing periodic flooding of areas on the lake fringes.

Under the proposal before the California legislature, this state would furnish $20,000 for right-of-way easements in the California segment of the project. The easements would be obtained by the state water resources department.

William Curran, well known Crystal products distributor here, appeared twice on Reno television last week when he told of the 20-30 Club's Easter egg hunt to be held Sunday afternoon and the second occasion when he explained the shortage of milk and other dairy products in the Truckee area due to the unprecedented storms.

Daven and Ann Morey, who visited relatives at Sacramento, arrived home after the highway was opened.

Airport District Is Given Approval By 4 to 1 In Area

Huge Majority Favors Local District; Board Named By Voters

By a vote of nearly four to one, the voters of the Truckee-North Tahoe communities Tuesday approved the formation of the Truckee-North Tahoe Airport District and elected a board of five members to administrate the district.

The unofficial count showed the following results:

Yes: 415.

No: 134.

Tahoe City was the only precinct among the five voting against the issue. There the vote was 67 "no" and 37 "yes". Soda Springs gave a favorable vote of 10 to 6 and Floriston voted 13 to 11 favoring the formation of the district.

The largest majority, as could be expected, was in Truckee where there were 235 votes for and 22 opposed. Kings Beach also gave a good affirmative vote with 120 for and 28 against.

The board of supervisors of Placer County will canvass the votes in the near future.

On the basis of unofficial count, it appears that Fred Schultz of Kings Beach received the largest number of votes as director. With two precincts unreported, he had 330 votes, with Zeph Rose of Truckee, 325; Walter Speeter of Kings Beach, 313; Lee Apple of Truckee, 306; Rex Reid of Truckee, 284 and Don Stumbo of Tahoe Vista, 252.

This count may change when the ballots are officially counted

Chamber To Meet Every Wednesday

Because of the stress of important matters to be acted upon, the directors of the Truckee Chamber of Commerce will meet each Wednesday at noon instead of every two weeks.

Chamber President N. F. Dolley said this was decided upon at the meeting yesterday when it was found that time did not permit doing all the business scheduled for the session.

The new schedule will be in effect through June.

John Jamison, field representative for the state division of housing spoke briefly at the meeting vesterday, calling attention of the directors to a new federal act that might solve the pressing need for housing in this area. He said that he coull arrange to have a federal housing representative speak at a chamber meeting possiblv on April 25th at which time details of the plan can be discussed.

Fosten Wilson was appointed on the board to replace George Young who has left the community.

JUNIOR SKI MEET TO BE HELD ON SUNDAY

TAHOE CITY—Jack Starratt announced that the 28th annual Squaw Valley-Lake Tahoe Ski club junior races will be held this coming Sunday, April 13, starting at 10 a.m. at Squaw Valley.

There will be four classes from 12 to 14, 10-12, 8-10 and a class for those under 8 years of age.

Starratt said that no race cards are necessary.

A banquet will be held later at Tahoe Inn at Tahoe City for the young contestants and their parents and trophies donated by the Tahoe City merchants will be presented. Ribbons will be furnished to all participants.

GIRL SCOUTS PLEASE HOSPITAL PATIENTS

An Easter Egg tree was presented to the Tahoe Forest Hospital by members of Donner Troop, Girl Scouts, under the leadership of Mrs. Robert Leamon. The group presented the tree to the administrator, J. J. McGlade and then visited patients during the afternoon.

The tree was placed on display at the nurses' station and received much favorable comment from the staff, the patients and the visitors.

Son Is Born

Martin Charles was welcomed March 27 by the Conrad Briners at Palo Alto. The couple's third child weighed 7 pounds, 3 ounces on arrival. Dr. Monica Briner of the Tahoe Forest Hospital staff, the infant's parental grandmother, was a recent visitor at the Briner home.

EGG HUNT CANCELLED

Tom Stark of the Truckee 20-30 Club reported this week that the egg hunt scheduled for the children Sunday was called off because of the weather and expressed the appologies of the club for the inability to provide the annual fete.

Veterans' Officer

Weather permitting, a representative from the Nevada County Veterans' Service Office will be in Truckee Friday, April 11 between the hours of 10 a.m. and 3 p. m. Anyone desiring to avail themselves of these services may do so at the office of the justice court.

First news of California's admission to the Union reached San Francisco via the mail steamer, "Oregon," Oct. 18, 1850.

C. Z. SMITH, Secretary.

MILK PRICES SLATED TO DROP IN DISTRICT

SACRAMENTO - (CNS)—Housewives in Nevada county can look forward to a reduction of one cent a quart in minimum retail milk prices,

Milk prices in most areas of the state will decline from one half to one cent a quart on that date, the state bureau of milk control reported.

The change will come as a result of a seasonal pricing program instituted in 1956, under which prices are decreased during the spring and summer months to coincide with lower production costs. This decline means California dairymen will receive from 23 to 46 cents per hundredweight of milk less than they were paid during the fall and winter months when production costs are higher.

Generally, the northern and central marketing areas will receive a one-cent decrease, while the southern areas will receive one-half cent decrease.

Mr. and Mrs. Ray McCarty, who have been sojourning at Palm Springs, returned to Norden.

The B. M. Chaplins have changed their address from Berkeley to Sacramento.

CYA TO USE PART OF AIR BASE FOR HOUSING INMATES

SACRAMENTO (CNS) — The California Youth Authority revealed it has asked for the use of a portion of Parks Air Force Base in southern Alameda county to be used to handle the overflow of juvenile lawbreakers.

Heman Stark, CYA director, said he made the requests to Senators William F. Knowland and Thomas H. Kuchel. Stark said he understood that the Air Force was to be de-activated in the near future.

Stark had reported to Gov. Goodwin J. Knight several weeks ago that, if the present rate of commitment continued, emergency funds would be necessary for operation of the department during the balance of the 1957-58 fiscal year.

"We're still in the same general dilemma as then," Stark said. "But the rate hasn't increased as much as it did. We still have about 8800 wards waiting to be admitted to institutions."

Stark said about 300 of the wards were between the ages of 18 and 21 and would go to Department of Correction facilities. The balance of 500 represents about five weeks waiting time, he said.

"If the rate of commitment drops, we probably would make it all right," Stark said. "But this is the time when the commitments are highest. It's the time of year when unemployment is highest. Also, they've had time to fail in school and leave there."

Stark said the department was contemplating "a colony of about 200 inmates" to begin with, if facilities at Parks AFB are made available.

"We're thinking along temporary lines, of course," he said. "However, it's a nice piece of property, if we decided to try to keep it."

STEPS TAKEN TO ZONE TAHOE CITY DISTRICT

AUBURN—The county planning commission has approved steps leading toward shopping center zoning of a three mile stretch of State Route 89 at Lake Tahoe, despite an appeal for a delay pending the development of a master plan for the lake.

Robert Robinson, attorney for the 200 members of Tahoe Improvement and Conservation Association, declared the commission's approval of a draft of a zoning ordinance amendment is designed specifically to permit construction of a shopping center on a 23 acre tract a quarter mile south of Tahoe City.

The commissioners also approved changing a zoning application by Ray Towers and Thomas Joyce, planners of the shopping center, to conform with the zoning amendment.

Major arguments by opponents question the need for a shopping center and protest the establishment of a commercial activity in a residential area.

The new ordinance, as explained by Richard Tuttle, deputy district attorney, would control the type of business in the shopping center.

Switches, relays and other items of automatic telephone switching equipment depend upon magetism for their ability to function.

BOBSLEDING MAY BE ON OLYMPIC FARE

Assurance that at least ten national bobsled federations will participate in the event if it is held at Squaw Valley during the 1960 Winter Olympics has led to the announcement that exclusion of the bobsled from competition will be reconsidered at the meeting of the International Olympic Committee in May.

An Associated Press dispatch from Lausanne, Switzerland, said Otto Mayer, chancellor of the IOC, said new elements may encourage the committee to change its mind.

Bobsleds were removed from the Squaw Valley program last summer when it was indicated only two nations had definitely expressed interest in sending teams. Since then, however, several countries have expressed a desire to send teams and the matter will be reviewed at the meeting in Tokyo on May 14.

Germany has requested that the diathlon be removed from the program. This is a shooting and long-distance skiing event.

California's 1957 production of natural gas was valued at $118,750,000.

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 510, Public Works Building, Sacramento, California, until 2 o'clock p. m. on April 16, 1958, at which time they will be publicly opened and read in the Assembly Room of said building for construction at Maintenance Station in accordance with the specifications therefor, to which special reference is made, as follows:

Nevada County, in Truckee, at Truckee Maintenance Station (III-Nev-Truckee Maintenance Station), portion of yard area to be graded, new 72-inch chain link fence to be constructed and portion of existing 72-inch chain link fence to be salvaged and reconstructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

RATE PER HOUR	CLASSIFICATION
2.75	Apprentice (oiler, fireman, heavy duty repairman helper)
2.98	Blaster - Powderman
3.22	Cement finisher (journeyman)
2.89	Compressor Operator
2.89	Concrete mixer operator (up to one yard)
2.98	Driller (diamond, core, wagon and track driller)
2.605	Driller's helper, chuck tender, outside nipper
3.48	Euclid operator ,T pulls, DW-10, 20 or 21
3.425	Fence erector
2.505	Flagman
3.33	Heavy duty repairman
2.755	Jackhammer operator
2.505	Laborer
2.605	Operator of vibrators and all pneumatic, gas and electric tools
3.55	Operator of power shovel, dragline, crane, clamshell, backhoe (up to and including one yard)
3.62	Operator of power shovel, dragline, crane, clamshell, backhoe (over one yard)
2.755	Pipe layer, caulker, bander
3.55	Power blade operator
3.33	Scoopmobile operator (when used as loader)
3.30	Small rubber tired tractor operator
2.605	Sloper
3.33	Tractor operator (dozer, scraper, compacting equipment and pus heat)
3.62	Tractor operator, compressor drill combination
3.48	Tractor loader operator (up to 2 yards)
3.33	Trenching machine operator
2.55	Truck driver (less than 4 cubic yards water level)
2.69	Truck driver (4 cubic yards and less than 6 cubic yards water level)
2.90	Truck driver (6 cubic yards and less than 8 cubic yards water level)
3.10	Truck driver (8 cubic yards or more water level)

Any classification omitted herein not less that $2.505 per hour.

Overtime—not less than one and one-half (1½) times the above rates.

Sundays and holidays—not less than one and one-half (1½) times the above rates. The holidays upon which such rates shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workmen employed on the project.

Plans, specifications, and standard proposal form to be used for bidding on this project can only be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California.

Plans and specifications may be seen at the office of the State Highway Engineer at Sacramento, at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications .Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject anv or all bids.

STRICTLY STRICKLAND

By Bill Strickland

Tuesday, April 1, 1958, was April Fool's Day—a day of gags and horseplay, as a rule; but, when the residents of Donner Summit, Soda Springs and Norden looked out their windows, third floor windows, too—the first two floors of practically all the homes in the area are covered with snow, it wasn't a gag.

Snow was still falling, the barometer was still falling, and there was no let up in sight. By Wednesday, April 3, 162 inches of new snow had been recorded in six days—162 inches added to a pack of 101 inches mean't that it was just 34 inches shy of 1952's record 297-inch pack of January 27. This, mind you, though, in April. As near as I've been able to find out, this is the heaviest pack on the ground for April since records have been kept—and that dates back to the 1850's.

The week of March 31-April 6 is Easter week also. Families, colleges, high school students are here in numbers for a ten-day holiday. Many would like to go home but can't. The road is closed; so they will remain. Southern Pacific Train No. 22 is stalled because of a slide. The Streamliner, City of San Francisco, was delayed at Norden for 36 hours because of the heavy snow. It finally backed out and returned to Reno.

Men like Al Lloyd, Alex Ayala, Herb Copeland, Dick Lambert, Jack Miller, Al Johnson, Chuck Merica have been doing yeoman work to try and keep at least one lane of Highway 40 plowed out. Not for traffic, mind you, but to be able to know where the road is. Al Lloyd and Alex Ayala had been working for a solid 36 hours when I last saw them. Let me tell you, it's mighty discouraging to cut one lane through—only to find that in less than an hour it has been filled by from four to eight feet from slides, drifts and new snow. So, they do it all over again. The cuts get higher and higher, the thin one lane ribbon gets narrower and narrower. Still they push on, these iron men of the maintenance crew. They don't dare stop; if they do men on other pieces of equipment will be stalled and stranded in weather that isn't fit for man or beast. If you've never been caught in one of these storms, you, of course, have no idea of the cold and discomfort that must be endured.

One of the greatest hazards, strangely enough, is caused by the humans in the area. Not the local people, but those who have come up for ten days of skiing and vacation. I'll cite an example, and I know it's true because I saw it. I was caught on the Truckee side of the mountain, when the road was closed. After sitting it out down there for 27 hours, I felt I'd better get home anyway I could. So, I left my car at Donner Lake and thumbed a ride on a piece of highway equipment. We were almost an hour getting to the Summit from Donner Lake. We waited at the maintenance station for the arrival of a rotary going west toward Soda Springs—when one finally arrived we took on the role of co-pilot. And, at what seemed a snail's pace, the Big "Go" started chewing its way forward. Drifts had blown across the road as deep as six feet. This rotary, remember, had just come up the hill less than an hour before.

About half way to Soda, and directly in the path of this snow consuming machine were eight or ten boys and girls out for a walk. Had it not been in a sheltered area, the blowing snow would have been obliterating the road directly in front and those youngsters could have been seriously, if not fatally injured. As it was, they were seen, and the plow was stopped, while they tried to scamper up a 30-foot embankment on either side. They would never have made it, had the plow not stopped though. The equipment operators are guided by the snow poles on the side of the highway. So, you can easily see what could happen if a car or person were directly in front of those augers. They wouldn't be seen until it was too late. And, even then they wouldn't be seen, they'd be felt.

The brighter side of this story has to do with the terrific outlook for two or possibly even three months of spring skiing. When you'll be able to glide over the top of a 20-foot pack of corn snow in your shirt sleeves on bright sunny days that are brighter and sunnier than any place I've ever seen. So, come on up for some wonderful spring skiing. If your next trip should be during a storm, though, remember the Herculean task that confronts our maintenance men, and help them and yourselves by staying out of their way.

As a result of the storm, the mountain emptied itself of everyone except those who live here. About 800 were in the area for the Easter vacation period, but they headed homeward as soon as the division of highways would permit them on the road—By Friday the mountain was a clean as a billiard ball. The maintenance crew had a clear shot of the road and really went to work in earnest. Have you any idea how much snow was moved to clear Highway 40?—from Donner Lake to Yuba Gap? This is figuring the new fall only—much more if you add the drifts and slides. One hundred eighty inches of snow is 15 feet. Multiply that depth by 27 feet in width and then 23 miles and you wind up with 49,183,200 cubic feet or 5,464,800 cubic yards.

The dirt moved on the Floriston Freeway was around one and one-half million cubic yards—that was achieved in six months. This snow was four times as much, and has been moved in seven days—quite an achievement, don't you think?

The entire mountain has been digging out for the past four days. Ralph Rowton had a crew of five men for two days shoveling the snow from his garage roof.

The Soda Springs Ski Corporation required two days to dig out a path for the chairs to run through. They operated on Sunday for a handful of skiers who stayed there.

The Sugar Bowl was able to operate their rope tow only. The Mt. Lincoln lift is out of operation for the season—what with two towers down from avalanches. The Disney lift will require between two and three days to dig out according to Manager Walter Haug.

We will have one of the longest and best spring skiing seasons as a result of this storm though, and that's for sure. I hope the resort operators stress that fact and let people in the flatland know of the pleasures awaiting them for the next coupla months.

The Magic Carpet parking area and the Donner Ski Ranch parking area are clear as a result of owning their own rotary snow plows. In fact, those two plows were working all during the storm. They had to or they also would have been buried.

Easter Sunday was a complete turn-about of preceding Easter Sundays—any Sunday, as far as that goes. The average crowds between seven and eight thousand on Easter Sunday—parking places are at a premium—lift lines curl around into unbelievable lengths—restaurants and coffee shops are jammed. Easter, 1958, though, was the other extreme. I counted nine skiers in one area—fourteen at another, and seven at a third—quite a difference.

Bill and Kay Brownell and Les Means and his family from Woodland arrived at the start of the week. They stuck it out for several days but finally threw in the sponge when the highway boys said they could follow a convoy out. I mention them because they are regular customers and have been for many years. Les was also one of my buddies from Yosemite, that during my salad days way back when.

They'll all be back though, and from where I stand, spring skiing will be terrific—twenty-four feet—who-e-e-e-e-!

It has been estimated more than 400 billion package containers are produced annually in the United States.

Statement of Principles

The Truckee Public Utility District was created by the Citizens of this community for the express purpose of supplying adequate utility services, when and where needed, at the lowest rates consistent with sound business principles.

Being consumer-owned, its customers and its stockholders are one and the same, with the result that it has one master and one loyalty—the community and its citizens.

With no conflict between consumer and "Stockholder" and with direct control of operating policy by the people it serves, the Utility District is in an unequalled position to serve the community.

VOTERS APPROVE BOARD INCREASE; DUNNE REELECTED

TAHOE CITY — At the April 1 Tahoe City Fire Protection District regular and special election, Jack B. Dunne was reelected as a fire commissioner and the proposition to increase the number of commissioners from three to five carried with but one "no" vote.

At present, three fire commissioners were to meet on April 8 to canvas the vote and request the Placer County Board of Supervisors to appoint the two additional two commissioners.

The necessity of two additional commissioners had been decided upon because of additional territory being annexed to the fire district recently.

CHURCH NOTES

Community Methodist

Easter Sunday, two services were held and Rev. A. T .Hanson used as his text John 20: 1-8 on the Resurrection of Jesus. Three anthems were sung by the choir which for the first time was accompanied by the Estey electric organ lent to us by the Sparks Methodist Church.

Monday night, April 7, Mesdames Fosten Wilson and Wilbur Glenn went to Kings Beach where representatives of the religious education departments of the Truckee and Kings Beach Methodist church met at a work shop. Next Thursday ,April 17, they will meet again.

Tonight the choir will practice at 7:45.

Sunday, April 13, Sunday school will be held at 9:45 and morning worship at 11 a. m.

The official board of the church will meet with Rev. Hanson at the church Sunday.

Friday, April 18, is an all church dinner at which time a review of the program for the ensuing year will be presented. All members and friends are invited to this dinner which will be served by the Women's Society. The cost of the meal will be children 50 cents and adults $1.

Truckee Bible Church

The pastor and the congregation wish to express thanks to the Donner Florists for the beautiful floral arrangement.

We look forward to a special treat next Wednesday at the regular Power House at 7:30 p. m. when Miss Ruth Battey of the Orinoco River Mission will be with us to tell of her work among the Spanish speaking people in eastern Venezuela for the past 25 years. Miss Battey has slides to show and a wealth of blessings to share.

Pastor Rhoades will resume the series in prophecy "Signs of the Times" with a message on "The Future of Communism."

BOARD DENIES RATE INCREASE ON WATER

SAN FRANCISCO— The California Public Utilities Commission denied the major part of the increase in rates applied for by Tahoe Park Water System, but authorized a modified rate raise which will, it is estimated, produce an increase of $930 per year over present rates and a 6.6 percent rate of return.

The water system, serving Tahoe Park tract and Miramar Heights tract, about two miles south of Tahoe City, is owned by Stanley Z. and Lauretta A. Bolton. They requested a raise from a season flat rate of $24 to $60, for five months. The commission authorized a raise to $30 per season.

For metered service charges of $5.50 per meter per month were authorized, for the first 700 cubic feet o rless, and 30 cents per 100 cubic feet for the next 1300 cubic feet of water.

The new rates are to be effective on and after May 1, 1958. Present rates have been in effect since 1948.

Customers testified that they want year around service. The owners now permit 25 to 30 customers to obtain free service during the winter but said a considerable expense would be involved if year around service was provided to all customers. The commission concluded that an accurate estimate of providing facilities for all year service and a survey of the number of customers willing to share the additional expense should be needed before it could be determined whether all year service should be provided, and at what rates.

The water system was ordered to file rules governing customer relations and to file maps showing its service area.

SCHULTZ SPEAKS ON AIRPORT AT ROTARY

TAHOE CITY— Fred Schultz, president of the Lake Tahoe-Sierra Chamber of Commerce, was guest speaker at the April 1 meeting of the Tahoe City Rotary Club, held at Tahoe Inn. His subject was the proposed airport district with the airport planned to be located at Martis Valley.

Schultz spoke in favor of forming the district whether or not a landing field is built in the immediate future because with our own airport we would be exempt from a Placer County airport tax should the county take over the Auburn airport. That statement was questioned by one Rotarian and other members expressed their objections on the grounds too many unknown factors and whether or not an airport could be operated during the winter in the area.

Twenty-four members and two guests attended the meeting. Bill Conners brought Bob Jorgensen and Ralph Bly had Rolland Kimball as his guest. Warren Porter presided.

Undergoes Surgery

TAHOE CITY—The Phil Geiers have learned that Robert W. Watson underwent successful surgery at a Sacramento hospital and he is expected to return to Newcastle where we will be glad to hear from local friends. He can be reached at Box 407, Newcastle.

The large brown pelican is a year-round resident of the San Francisco Bay region.

TAHOE TRUCKEE SCHOOL DISTRICT MENU FOR THE APRIL 14 THROUGH APRIL 18

Monday, April 14—
Spaghetti with hamburger, green salad, buttered green beans, apricots, bread and butter, milk.

Tuesday, April 15—
Spoonburgers, peach and cottage cheese, padsley potatoes, biscuits, milk.

Wednesday, April 16—
Beans children's favorite way, cabbage salad, buttered carrots, corn bread, milk.

Thursday, April 12—
Chicken and noodles, celery sticks, green peas, fruit cup, bread and butter, milk.

Friday, April 18—
Salmon loaf, carrot sticks, Harvard beets, fruit jello, raisin bread with peanut butter, milk.

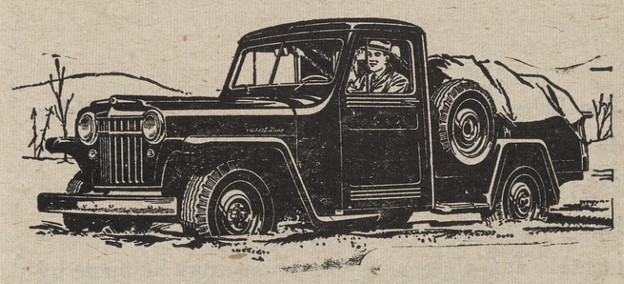
Works for you...



on the road or off!

The 'Jeep' Truck is time-tested and performance-proved. It works for you 365 days a year, because it's designed to handle the toughest assignments while taking the ordinary ones in stride. With the extra traction of its 4-wheel drive it goes—with a payload of over a ton—up steep grades, through mud, sand, snow or soft earth, where other trucks can't go. Then, for highway speeds it shifts quickly into conventional 2-wheel drive. With power take-off, it supplies mobile power for many types of machinery for business or farm. It's America's lowest priced 4-wheel drive truck.

4-WHEEL-DRIVE 'Jeep' TRUCK

WILLYS... world's largest makers of 4-wheel drive vehicles

The Past Inside—The Future Outside. That might well describe the architect's design of the $5 million National Cowboy Hall of Fame and Museum at Oklahoma City, for which the first $1½ million unit will start construction this autumn. Somewhat unusual in design, the open spaces of the west, cool water in pools and the shape of a trail camp cook fly are all caught here. Among national trustees for the shrine are Gov. Goodwin J. Knight, Lt. Gov. Harold J. Powers, Nelson Crow, Los Angeles, and Harley May, Oakdale. Roger Jessup, Glendale, is chairman of the California Association for the National Cowboy Hall of Fame.

MRS. POPE DIES

Funeral services were held at San Francisco today for Mrs. Elizabeth Pope, 36, wife of George Pope Jr. The deceased, with her family, was a Lake Tahoe summer resident and active in charitable work in the bay district.

"Balclutha" is the ancient Gaelic word for the town of Dumbarton, home of Robert McMillan, the first Scotch owner of the ship now tied up at Pier 43 in San Francisco.

NEWS NOTES FROM TAHOE

by MYRTLE CARNELL

Well, now that we are all dug out from our deluge of spring snow, let's take a look at the events that traspired over the past week. The weather might not have been what we ordered for Easter, but it certainly didn't stop the Tahoeites from going to church or from enjoying other festivities of the day.

Many Attend Services

Both the Catholic and Protestant churches in Tahoe City had very good turnouts for their Easter services. With the wonderful help of the highway department and individuals with plowing equipment, the area was cleared enough to allow many to attend church.

Catholic services were held at the Corpus Christi Chapel as planned with Father O'Neill delivering the Easter Mass. One disappointment was that because of the snow during the week the junior choir was unable to practice and did not sing the benediction, but they did do a choral selection at the close of the services. There was a good attendance of both locals and visitors, although traditional spring dresses and Easter bonnets were missing.

St. Nicholas Mission conducted two services, one at 9:45 which 40 attended and the 11 o'clock services attended by about 70. At the early moring services audience was made up mostly of children. The young choir of 10 sang a selection and formed a cross of daffodils. The flowers for the services were donated by the Donner Florists and delivered especially for the occasion. The determination of the people of this area to get to Easter services despite the great obstacle of heavy snow certainly shows a profound devotion and upholds the true spirit of Easter.

Don't Forget

The meeting on the improvement of the Tahoe City beach is scheduled for this Monday, April 14 at the community center. Be sure to come and bring all your ideas and suggestions. Chris Burmer, chairman, promises definite steps will be taken to carry out the project with the cooperation of everyone we can make our beach a perfect spot for swimming, boating and picnicking.

Taken To Hospital

Beatrice Burmer was rushed to the hospital after she passed out from carbon monoxide poisoning received while she was trying to free her car from the snow. Luckily her family was standing by and brought her around and she was taken to the hospital after first aid treatment. She is reported doing fine.

Returned Home

Alice Gebhart who has been in the hospital with a broken shoulder which she suffered when she slipped and fell on the ice in Truckee, is now at home in Tahoe City. Her daughter, Nita, came up to look after her and help out until the shoulder mends. All of the children in Alice's neighborhood dearly love her and are happy to have their friend home where they can visit her.

Many Snowed In

I guess all of us were more or less snowed in during this last siege of snow, but some worse than others. The ones that it really hit were our many summer residents who came up to spend the week and weren't too well stocked up with food. I hear many ran out of food and were really happy to see the plows.

Some of those up to enjoy our beautiful weather were the E. L. Olivers who live just beyond Ward Creek, the Frank Ortman family, the Dick Breuners from Sacramento, the J. Philip Murphys, all living along the west side of the lake toward Homewood. Also up and snowed in quite completely across the river were the Luhrs and the Ollie Meeks. Their cars as well as themselves had to be dug out and Chuck Henrikson went to the rescue.

Another Arrival

Born during our snowy season was a little fellow weighing in at 7 pounds, 7 ounces at St. Mary's hospital in Reno at 2:30 on Monday, April 7. This makes the 5th little boy for the Wayne Poulsens of Squaw Valley. The name at the moment has not been announced.

Out of the Line of Duty

The telephone company, as usual came through to aid when a little boy fell at Squaw Valley and hurt his leg. The telephone snow cat hauled the victim out and into the Tahoe Forest Hospital where his sprained leg was treated. Both the telephone and power company men deserve a lot of credit for their efforts during the storm. Also although many of us griped about our closed roads, we sure should give a vote of thanks to both the county and state crews who worked against odds to open the roads.

Many Doctors in Town

A group of seven doctors and their families were staying at the Tahoe Marina during the storm, in case you were worried about medical attention or were cut off by snow slides. And according to the Marina owner, Herman Henke, they thoroughly enjoyed all of the snow.

Delegates Needed

The St. Nicholas Mission needs delegates for the annual convention of the Sacramento diocese to be held April 29 and 30 at Eureka. Anyone interested may contact Charles Beardsley as a car pool will be formed and reservations will be made.

ITEMS OF INTEREST AT NORTH TAHOE

The Placer Co. Health Department has scheduled a well baby clinic to be held Friday, April 18, in Carpenter's Hall at Kings Beach, the hours from 12 noon to 2 p.m.

Mr. and Mrs. Don Huff of Homewood and Woodland have been enjoying a combined business and pleasure trip in Death Valley, Las Vegas, Arizona and Palm Springs. In the latter resort, the couple visited the George Kehlets.

Davey Ashton has returned to San Diego after seven months in far eastern water aboard the USS Kearsarge.

NORTH TAHOE

By JUDGE HARRY CHARRISON

WEATHER

I guess that nobody wants any reminder of what we have. had Well, we can still hope spring will be just around the corner. Had some neighbors up all through the big storm, and believe it or not they hated to leave. They were George and Mrs. Kosmak and daughter, Genevieve Gilcrest, Anit daughter, Genevieve Gilcrest, Anita March, Joan Kennerly and Lude Lindquist, all from San Francisco.

MEETING COMING UP

The meeting of the North Lake Tahoe Business Association will be held at the Tahoe Inn, Tahoe City, on April 20. Dinner will be served at 7 p.m. The meeting will commence at 8 p.m. Dinner will be $2.25. Make reservations by calling LIberty 6-3305 or JUniper 3-3711. Many interesting items will be brought up during the meeting.

ON ANOTHER TRIP

Hardly back from trips to Puerto Vallarta, Mexico, and to New York, John and Jeanne Palmer, of the Riviera Shop, left again. This time they went to Las Vegas, the desert resorts, the southern California beach resort, and Palm Springs. I guess you'll see some really pretty clothes when they reopen the Riviera Shop on Saturday, April 12.

BACK HOME

Carl Sorensen is coming home Sunday from Reno hospital where he had another operation on his thumb. He says he'll be able to hammer now.

OUT THEY COME

Sandra Martin (Dottie and Bill's daughter) had her tonsils out this week in Reno. Dottie said everybody had the same idea as the beds were kept warm with tonsil children. Sandra got home Friday and today she is 6 years old.

BUSY DAYS

Carol Howard is also in the St. Mary's Hospital for an operation. She is doing fine and missed a big day at the post office Saturday. People were greeting each other just like 1952 storm. Cars stuck and all.

MR. CHRISTOPHER CROW

Dave and Mrs. Crow are proud parents of a beautiful 6½ pound baby boy. Baby was born on April 2 at 2:31 p.m. Mrs. Crow was being transported by Verl Draine of Tahoe Cab Co. Draine's cab was being followed by Doctor Prescott. As weather conditions would have it, a snow slide had blocked the road at Deer Park Lodge. So Christopher Crow was born at Deer Park Lodge. Mother and baby are doing fine and are now at the Tahoe Truckee Hospital. Congratulations, folks. Also a sad note to this item: Bouregard, the pet dog of the Crow's was hit by a truck and killed yesterday. He was our Cleo (People's Choice) in this area, and will be missed by everyone. He never failed to make people stop and take notice and everyone always had a nice comment about him.

Warren N. Woodson, who settled in Corning in 1892, is credited with establishing the ripe olive industry there.

GOVERNOR KNIGHT HITS SECTIONALISM IN MAJOR ADDRESS

In the second major political address of his campaign for the United States Senate, Governor Goodwin J. Knight heavily underscored what he has termed the major issue of the campaign: broad-gauge representation of all California vs.. narrow political sectionalism.

Alternately serious and then chiding in a speech before a capacity gathering at a Knight for Senator fund-raising dinner at San Diego's U. S. Grant Hotel, the governor ripped into Congressman Clair Engle of Red Bluff for inflicting grave and lasting damage on the state through the exercise of irresponsible political sectionalism, then raised the question of why Engle seeks election to the senate after terming that body "the great boneyard of house legislation."

Asserting that "sectionalism can be very damaging to the well-being of the state," Knight declared that on issues that affect California, "I will always be concerned with the interests of all the people of the state."

The governor cited Engle's role in the successful effort by other states to infringe on California's rights to Colorado River water as a "seemingly unbelievable — but true" example of his opponents "reckless and selfish sectionalism."

Engle supported the Upper Colorado project, the governor said, when virtually all of California's responsible officials and public agencies were united in opposition to the development under terms which would discriminate against California's interests.

Largely because of Engle, Knight declared, that part of the battle has been lost in Congress and construction of one phase of the project, Glen Canyon Dam, is now in progress.

Previously, in a San Francisco speech launching his senate campaign in February, the governor branded Engle's attempted raid on San Francisco's historic Hetch Hetchy water rights, in a move which would have transferred San Francisco's rights to a small area in Engle's district, as another example of "sectionalism in its most selfish and reckless form."

Terming California's over-all water problem as one of the most important matters facing the entire state, the governor labeled Engle as "one of the few Californians in a key position whose actions have magnified the problem and made its eventual solution even more difficult."

The Coconino National Forest in Arizona contains the highest elevation in the State—San Francisco Peaks, 12,611 feet.

The most important wrought aluminum, in terms of volume and utility, is aluminum sheet.

LaMARR ASSISTANT NAMED FOR STUDY

Captain Jack Rhien, assistant to William LaMarr, chief of the department's wildlife protection branch, has been "loaned" to a special committee studying recreation in California.

Rhien will be a member of the staff of the public outdoor recreation committee, which was created by the 1957 legislature to develop a California recreation plan. Rhien's assignment will be for two years.

During that period he will be replaced in the headquarters wildlife protection office by Warden Bernie Faist of Georgetown, El Dorado County. Faist has been promoted to captain effective April 1.

AGREEMENT

NOTICE OF AGREEMENT TO PURCHASE PROPERTY DEEDED TO THE STATE FOR DELINQUENT TAXES

NOTICE IS HEREBY GIVEN in accordance with the provisions of Division 1, Part 6, Chapter 8 of the Revenue and Taxation Code and the written authorization of the State Controller that an agreement, a copy of which is on file in the office of the Board of Supervisors of Nevada County, has been made between the said Board of Supervisors of Nevada County and the State of California, whereby said County will sell to said State of California, under the terms set forth in said agreement all the right, title and interest of the State of California in and to the real property hereinafter described.

That, unless sooner redeemed or an installation plan of redemption is initiated, the undersigned Tax Collector, pursurance to said agreement will not less than 21 days after the first publication of the mailing of this notice as required by law, whichever is later, sell said property to State of California.

The right to redeem the property has already terminated.

The property referred to and contained in said agreement is situated in the County of Nevada, Truckee, State of California and is substantially described as follows:

That part of SW¼ Sec. 28, Twp. 18 N. R. 17 E. Mt. D.B. and M. lying NW of Truckee River (except 2 A in SW corner thereof) containing 58 acres. Last assessed to Unknown Owners.

Dated: at Nevada City, California, this 27th day of March, 1958.

HILLINGS PREDICTS BRIGHT FUTURE AS RESULT OF GAMES

Congressman Pat Hillings of California has predicted a bright new future for one of the state's most picturesque areas following congressional approval of federal government participation in the 1960 winter Olympic games at Squaw Valley.

Hillings said the Olympics will focus world attention on one of the most beautiful, scenic areas of California, a fact well known to Californians but little known to those outside the state.

Hillings, a native of Hobart Mills in Nevada County, sponsored one of the bills that permits the armed forces to provide support for the games in 1960 in Placer County.

"Squaw Valley could well become the mecca for world winter sports enthusiasts following the 1960 Winter Olympic Games," Hillings said. "The buildings and equipment that will be constructed for these games will give the valley permanent status as not only a year-round playground, but particularly as a winter sports center.

Hillings, who joined the debate in favor of the bill permitting the armed forces to support the winter Olympic games, said the military will provide personnel, equipment and supplies for the preparation of courses, fields and rinks; avalanche control, communications and transportation.

Congress has authorized an expenditure of $4,000,000 for the games, of which $3.5 million will be earmarked for construction of a sports arena.

South of the Border

Mr. and Mrs. Dan Horman of Donner Trading Post planned to leave tomorrow on their first lap of a two weeks trip into old Mexico. They will drive to San Diego and then make a tour flight by plane.

TRUCKEE BOY WINS HONOR AT ORD

Private Robert G. Trask was awarded a trophy by Col. Lewis E. Maness as the third top firer in his basic training company at Fort Ord. He scored 225 of a possible 250 points firing at ranges of 100 to 500 yards with the M-I rifle. The presentation, shown above, was made at an open house held Saturday, March 15. Trask is the son of Mr. and Mrs. Edward Trask of Truckee and a graduate of the 1957 class of the Tahoe Truckee High School. a

SNOW PARKING

and 11 miles, respectively, from Squaw Valley.

In addition to the considerable cost involved in preparing these areas, the organizing committee would further assume the additional expense of operating a fleet of shuttle buses from the parking areas to the Squaw Valley site.

As well as saving the more than $700,000 for paving and bus service charges, the snow compaction plan would provide a tremendous convenience to most of the 40,000 spectators expected for each day of the competitions.

The U. S. Naval Engineering Research and Evaluation Laboratory, headed by Commander C. J. Merdinger and headquartered at Pt. Bueneme, has tested the 300x85 ft. strip under weather conditions ranging from pouring rain to driving snow, and in temperatures from zero to 49 degrees.

Under Director Earl H. Moser, Navy Project Engineers R. C. Coffin, Jr., J. E. Dykins and J. O. Cosenza have been working in conjunction with Traffic Engineer Arthur C. Jenkins and Civil Engineer E. Elmore Hutchison, both representing the organizing committee.

The cars and buses, with and without chains, provided actual operating conditions for the test. Although the area was subjected to constant in and out traffic as well as all-night parking, the pad was undamaged.

The engineers themselves gave the area extremely rugged treatment. Hours were spent driving over the area in a variety of vehicles, including a 26,000 pound truck equipped with chains on its rear wheels.

Despite the obvious success of the tests, the navy refused to draw any conclusions prior to the completion of the experiment and the subsequent official report. This is expected this month.

Many Tests Required

Additionally, the engineers are gathering information regarding the number of personned necessary for the operation, the number and type of motor power units necessary for treatment, the relationship between compaction treatment and occurrence of snow storm and the stability of meadow soil for supporting snow compaction parking, the minimum and maximum snow depths before compaction, effects of normal flow under the area and the effects of warm tires and mufflers upon a snow surface.

Equipment used in the test included a pulvi-mixer, a mechanical rake type machine which is also employed as sawdust distributor; a pair of 20,000 pound D-2 cats modified with low-ground bearing pressure tracks which transmit 4 pounds per square inch pressure to the surface; a snow planer, a steel snow roller which weighs five tons with its ballast tanks empty, a hydraulic vibrator unit for compacting, a swing crane and a wobble-wheel roller which simulates the load of a landing aircraft on the surface. Additionally, the unit was equipped with transportation vehicles including a truck, sedan, jeep and carryall.

No Comment

Although the organizing committee kept a weather eye on the operation, officials declined to comment, preferring to withhold their opinions until a study was made of the official report.

200 CHILDREN TAKE PART IN EGG HUNT

KINGS BEACH — Cold, snowy weather did not dampen the enthusiasm of approximately 200 children of the North Tahoe area on Saturday afternoon, April 5, when they participated in the free movie and egg hunt.

This annual affair was given by the Rotary Club of Brockway and many Rotarians were on hand to help and special thanks was given Jack Neugebauer for the use of his theater, to deputies Rapisarda and Burris for handling traffic, to Hillard Holmes for clearing the parking lot, to Roy Porath for taking the surplus baskets and bags of candy to the Sunny Acres Children's Home in Carson City and to Crystal Bay Club for donating the use of their parking lot and snow banks for the egg hunt.

Winners at the egg hunt were Jo Ellen Burris, Greg Pope, Ross Knittel, Madeline Kammerer, Susie Graton, David Moore, Sid Moore, Sally Templeton, Danny Porath, Stan Mason, Pat Roberts, Mart Neugebauer and Larry Moore.

At Mt. Shasta—

Mr. and Mrs. Clarence Osburn and children traveled to Mt. Shasta during the Easter vacation.

Slides Block Cars On Tahoe Highway

Three slides on State Route 89 at Deer Park Lodge Wednesday night caused considerable difficulties to traffic and a number of vehicles, including a Placer County rotary plow, a California Highway Patrol car with Patrolmen Meixner and McCallen and a Truckee Tahoe Fuel truck operated by Jerry Little of Kings Beach to be stalled most of the night.

The slides which occurred about 11 p.m. caught the oil tanker occupied by Mr. and Mrs. Little, but both made their way to the lodge where they spent the night while the equipment from the Truckee maintenance station cut through the clogged road.

The Placer County rotary, which had been clearing the Squaw Valley road, was starting back to Tahoe when the slide occurred. It was unable to proceed until the equipment from Truckee arrived to cut the heavy drifts.

A number of other cars traveling over the road were stopped, some being able to turn around and return, but for the most part all were forced to remain in the slide area as the slides cut off a return north and some were caught between slides. There were also slides north of the Truckee River bridge which delayed the state equipment for some time.

Small trees and rocks were embedded in the main slide at Deer Park adding to the difficulties in opening the road.

A previous slide halted the taxi Mrs. David Crow to the Tahoe Forest Hospital and her son was born at the lodge Wednesday afternoon.

Rotarians To Attend Carmichael Conference

Eight Rotarians from Truckee plan to attend the annual conference of the Cal-Vada No. 519 District of Rotary International from April 13 to 15 in Carmichael, Dick Swanson, president of the local club announced.

Representatives from 41 other Rotary clubs in northern California and Nevada which make up the district also will attend. The meeting is held each year, Swanson said, to review Rotary service activities and to make plans for increasing their effectiveness during the coming year.

District Governor Dr. Robert C. Hall of Marysville will preside at the conference sessions.

Local Rotarians, headed by the president, who will attend the conference are Carroll Maynard, Hal Welch, John Ciardella, Joe Mattos, William Curran, Bruno Bellotti and C. Z. Smith.

Thirteen Rotarians and their wives, headed by President Warren Porter also will attend as well as a large delegation from the Rotary Club at Kings Beach.

On TV—

Three local men were featured in TV broadcasts in describing activities in the snow including Highway Patrolman Martin Sturke, E. A. Lloyd and Frank Fox.

MRS. PEDLEY ATTENDS CLUB SAFETY MEEING

Mrs. Fred Pedley, safety chairman for the California Federation of Women's Clubs, state division, is this week in San Francisco attending the presidents's western regional traffic safety conference at the Sheraton-Palace Hotel.

The conference was on April 8 and 9 with the program division leaders meeting Monday evening for buffet dinner conference.

Mrs. Pedley was discussion leader for the group on assisting in the needs of young drivers.

This western division conference includes the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

Following the conference, Mrs. Pedley will remain in San Francisco a few days to complete her plans for the California Highway Patrol safety unit bus visit to the Federation of Women's Club State Convention in San Francisco May 12-13-14-15.

TOWERS BROKEN AT BOWL BY SLIDES

Three towers on the Mt. Lincoln chair lift at Sugar Bowl were ripped out by snow slides during last week and as a result that popular facility will be out of operation for the balance of the season.

However, Manager Walter Haug reported that workmen have cleared the Mt. Disney lift and it will be in full operation.

The divisional DS championships for open, Classes A, B and veterans is scheduled for Saturday and Sunday. The annual Silver Belt Trophy race will be run from Mt. Disney on April 20 and the National Ski Patrol championships on April 26.

Prescription Pharmacists

Certain Self-Treatment Should Worry You, Too...

Powerful and effective, many new drugs can produce remarkable results. Likewise, much damage can result from improper use or overdose. Dangerous immunities can develop. Permanent injury can be done —even life can be endangered.

For good reason, there are restrictions on the use of penicillin, Chloromycetin, certain sulfa compounds and other drugs without the care and prescription of a physician. When your health requires it, consult your Doctor. He will prescribe these new and potent remedies when he feels they are required.

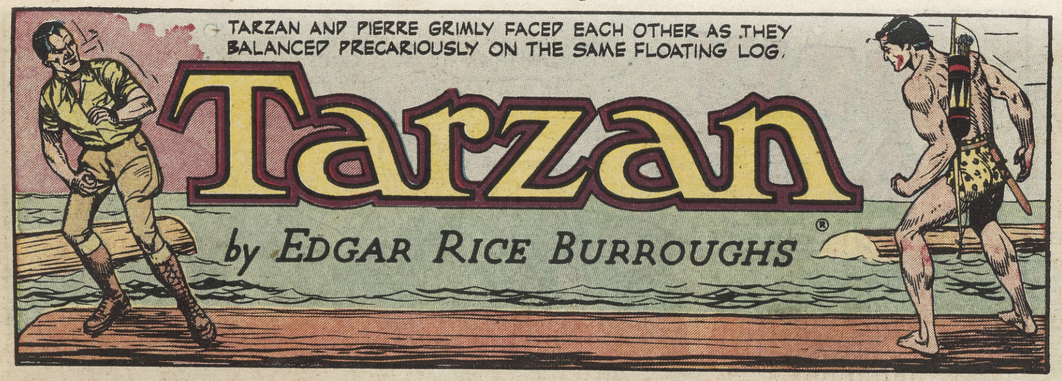
Tarzan

by EDGAR RICE BURROUGHS®



TARZAN AND PIERRE GRIMLY FACED EACH OTHER AS THEY BALANCED PRECARIOUSLY ON THE SAME FLOATING LOG.
THE FRENCHMAN WAS COMPLETELY AT HOME ON THE LOG... QUICKLY HE MANIPULATED HIS FEET, SPINNING THE LOG, AND SENT TARZAN REELING INTO THE WATER--
...THEN FOLLOWED WITH A KICK TO HIS HEAD!
AS THE APE-MAN WAS SLIPPING UNDER THE SURFACE OF THE WATER HE YANKED AT PIERRE'S ANKLE--
AND, WITH HIS AMAZING LUNG POWER, KEPT HIS OPPONENT UNDER WATER UNTIL UNCONSCIOUS!
"YOUR TROUBLES ARE OVER," HE SAID TO HIS FRIEND, GLENN PHELPS. "JUST BE SURE THAT THIS SWINE STANDS TRIAL FOR MURDER!" 4-13-1414
